

True Digital Transformation

A leading Brewery from South Asia

True Digital Transformation

How Can the Right Technology and Deployment Solution Keep Industry Leaders **Ahead of the Pack?**

ONE

Platform for all business processes and data

*Brewing world-class beer for **more than 150 years.***

Home to the legendary beer from South Asia is the largest beer maker and distributor in Sri Lanka. In addition to its exceptional recipes and brewing process, they prides itself on bringing proven best practices, innovation, and cutting-edge technology to its business operations

Laying the Foundation for Digital Transformation

Before: Challenges and Opportunities

- Simplify and integrate existing SAP® solution landscape
- Improve business insight and performance by giving managers access to live data for planning, execution, reporting, and analytics
- Improve user experiences and increase user adoption

Why Us?

- Our extensive experience with SAP S/4HANA conversions and hyperscaler deployments on Microsoft Azure
- HANA Factory – A proven Package for SAP S/4HANA Conversion

After: Value-Driven Results

- Unified ERP platform that will simplify IT and provide one source of truth for reporting and analytics
- Foundation to support existing and future enterprise applications and data, including the SAP Fiori® user experience
- Ease of adoption for new functionality and process innovation, such as live materials resource planning

With SAP S/4HANA, we are developing a scalable infrastructure while leveraging SAP software capabilities to **improve speed, performance, agility, and process efficiency** and become a data-driven organization. Having proven partner-packaged solution helped us design a transformation plan together with SAP.
